VipaBoard Bath Panel
Fixing Instructions

STEP 1

Measure the VipaBoard Bath Panel and cut to the required size.

STEP 2

Insert VipaBoard Bath Panel under bath edge and level.

STEP 3

Adjust the feet to the required height using a 15mm spanner.

STEP 4

If fitting an end panel, apply a bead of VipaTek to the end panel and position the side panel.

STEP 5

Secure the VipaBoard Bath Panel using the PCS screws and washers provided.

**STEP 6**

Apply PCS Joint Reinforcing Tape to the board edges.
